VISUAL ARTS

Available to:

Grades 10 and 11 learners
(NSC only available up to Grade 10 in 2024)

AN OVERVIEW

Visual Arts promotes self-expression and creativity and can build confidence as well as a sense of individual identity. This course will assist you to become a critical thinker in today's ever-changing society, and you will also learn how to problem-solve. Art reflects and helps to create a culture's vision of itself, and as a result, studying the art of the past teaches us how individuals have seen themselves and their world. Visual Arts also equips future artists with the ability to harness their intuition in order to effectively communicate their ideas.

CAREER PATHS

There is an ever-increasing list of art-related jobs out there. You could become an animator, illustrator, art director, interior designer or photographer, to mention but a few. In the art industry you can create original works as well as sell and promote them, and curate and display them to the public in museums and galleries. There are also job opportunities in teaching others about art, and jobs in which you could assist others in expressing themselves through art.

○ WHAT YOU CAN EXPECT FROM THIS PROGRAMME

The Visual Arts programme will equip you with the artistic and technical proficiencies necessary to create a variety of art forms, including paintings, drawings, sculptures, photographs, videos and films. Many artistic disciplines – such as performing arts, conceptual art, and textile arts – also involve aspects of visual arts, and the course will teach you about these connections. The theory component of the course, Visual Culture Studies, incorporates art history, anthropology, sociology, archaeology and theology. This programme has been developed with the intention of broadening your perspectives and teaching you about the artists, past and present, who captured the spirit of their time and who reverberate with us today.
